## INTRODUCTION

This directory has been prepared from the individual school reports submitted by the local school superintendents to the Research and Development Center of the Department of Education. The data reflects the school year 1968 - 1969 and gives the membership as reported October first, 1968. Only those schools which filed a return are listed.

The schools are arranged alphabetically within an alphabetical order of the cities and towns. The code numbers appearing to the left of the cities and towns and schools are for identification and are used by the schools when filing returns. The municipality code and the school code must be used (i.e., Waltham Senior High School would use 308 505).

Corrections and/or additions to this directory or suggestions to improve its format or content should be addressed to:

Mr. Clement G. Perkins, Senior Supervisor in Education
